CORRECTION TO FOREIGN PRIORITY PAPERS ON FILE

In review of the Foreign Priority Papers for priority document 2,334,375 submitted on Nov 11, 2004 to the Patent Office, we discovered that the incorrect priority document papers 2,371,602 by the same inventors entitled "High Speed Laser Micrometer" are in the PTO electronic image file wrapper.

A correct claim for foreign priority to 2,334,375 was made in the Feb 1, 2002 transmittal letter. On Nov. 11, 2004 incorrect Foreign Priority Papers were submitted to the Patent Office. The Nov 22, 2004 Office reply to the Nov 11, 2004 submission made no indication of incorrectly filed papers. The issued patent and PAIR each correctly reference the priority document 2,334,375 "Laser Micrometer" not 2,371,602 "High Speed Laser Micrometer".

Therefore, please amend the appropriate records to include the enclosed certified copy of priority document 2,334,375.

The Commissioner is hereby authorized to charge any additional fees or credit any overpayment to Deposit Account No. 50-1698.

Respectfully submitted,

THELEN REID & PRIEST LLP

(57) **ABSTRACT**

A large profile, high speed laser micrometer is formed from a light source unit comprised of a plurality of emitter modules that combine to emit a laser sheet and a detector array comprised of a plurality of detector modules. The laser micrometer also includes a data processing unit. Each of the emitter modules is aligned with a corresponding detector module such that an object passing between the light source unit and the detector array can be measured to an accuracy of at least 1/100ths of an inch.
